

Citrus UVA Rugged

Citrus® Rugged fanless Mini PCs are small-form-factor computers that are tough and dependable. It is designed to handle complex & difficult industrial work loads. It is passively cooled using heatsinks and are suitable for deployment in a variety of volatile settings. This durable, high-powered, small-form-factor PC is the ideal solution to your resource-intensive applications' ever-increasing needs, especially if they operate in space-constrained locations.

Features:

- It has a fanless, dust-resistant chassis with an installed I/O board
- The metal ribbed chassis is VESA mountable
- Designed for continuous operation and has DC overvoltage protection
